

U.S. Wheat & Barley
Scab Initiative

MEMORANDUM

DATE: April 2, 2007
TO: The Scab Community
FROM: Marcia McMullen and Dave Van Sanford
RE: Action Plan Update

The second draft of the action plans has come back from the writing teams and is posted on the Scab Website (http://www.scabusa.org/pdfs/USWBSI_Action-Plan_2nd-Draft_web.pdf). Bookmarks have been added to the pdf file for easy maneuvering throughout the document. The Research Area Committees (RACs) are now in the process of reviewing this draft and will make recommendations for implementation. These recommendations will be considered by the Executive Committee during late April and early May.

The goal will be to present a workable version of the Action Plan to the Steering Committee (SC) at the SC meeting in late May. The ScabTalk website (<http://scabusa.org/phpBB2>) is still open for business, so if you want to have input into the process and you are not a RAC member, visit the website and post your comments.

The EC will consider all of these comments in making their final recommendation to the SC.
